

On June 15, 2020, the Rehab Optimization project will be implemented. Therapists will begin documenting charges within the documentation forms. This flyer will display what charges can be documented by each of the Member Organizations by Physical Therapists.

Time Spent with Patient Charge Section

The first column of the table displays the charge name. The remaining columns are for each of the Member Organizations.

NOTE: If a treatment was performed that has a charge documentation field for it, and the column for your facility indicates your location doesn't charge for it, this treatment is not charged for by your facility. Documenting a Unit charge will result in a Suspended charge which will need to be corrected if you charge for it.

NOTE: Each Member Organization should only document a charge if there is a YES in the column for their facility. Documentation of a charge with a NO in the column will result in a suspended charge and will need to be corrected.
