

Clinical Informatics New Cerner User Education Calendar 2021

Listed below are the regularly scheduled new Cerner user classes offered by Clinical Informatics.

The calendar is subject to change due to new electronic health record (EHR) project implementations, holidays, and other factors.

- Please also note the following:**
- The calendar is subject to change due to new electronic health record (EHR) project implementations, holidays, and other factors.
 - The frequency of classes at the various member organizations vary based on class needs and availability.
 - [Pre-enrollment is required for all classes. Please use the Clinical Informatics Education Request form in the Self-Service Portal. Click here to launch this form.](#)
 - Many classes have associated online pre-requisite education. New users must complete 80% of assigned role-based simulation-based learning completed prior to instructor-led education.
